

Accent 10™

Accent 10™ was created as a cabinet design that combined uncompromised subwoofer performance with extended frequency range and the highest fidelity. The result is a 3-way system that provides excellent full-spectrum mid and high frequency response with high-output, low frequency energy creating a unique cabinet choice that compliments the other Organ Expressions Ambience and Accent cabinet selections.

Accent 10™ employs the same parallel, dual-tuned bandpass low frequency cabinet design used in the Accent Bass™. When bi-amplified it can provide a separate speaker for low register pedal stops within the same enclosure that reproduces all the other ranks. Impressive sensitivity specifications and increased low frequency output efficiency along with the ability to cover the full-spectrum of organ sounds for such a small cabinet are compliments to its musical and dynamic sound character.

Combining Accent 10™ with Organ Expressions Ambience 5™, Ambience 6™, Accent™ or Accent Bass™ can provides numerous virtual organ output configurations and assemble a truly breathtaking speaker compliment with powerful, full-spectrum sound capable of reproducing any style of organ music with authority and the highest fidelity.

Organ Expression Series™

Accent 10™

Architectural Design and Engineering Specifications:

Exterior Finish:	Piano Black, Cherry or Maple Veneer with Black Grill
Exterior Dimensions:	19.125H/19.125W/18.0D
Net Weight:	67 Lbs.
Loudspeakers;	10 inch High-Excursion Woofer 6 inch High-Compliance Woofer 1.125 Inch Ribbon Transducer
Frequency Dividing:	Bi-Amp or Passive Crossover at 150Hz-12db/octave Passive 2-way, 2 nd Order Butterworth at 4.5 KHz
Connectors:	5-way Binding Posts with 10 gauge wire capacity
Frequency Range:	30Hz – 40KHz
Sensitivity:	97db (1 Watt/1 Meter)
Power Handling:	300 Watts RMS/600 Watts Program
Nominal Impedance:	8 Ohms

Accent 10: 1/3 Octave Frequency Response Graph (Pending)
