

Ambience 6™

This little gem in the Organ Expressions Series is the ideal solution for creating the sense of space that large, vaulted ceilings inspire. The frequency response, sensitivity, power handling and sound quality are unparalleled for a loudspeaker of this size.

Recommended for use in stereo pairs as reverberation channels in residential systems or for reproducing the individual ranks of your organ, from the gentlest Aeolian or String Celeste, to the boldest Trumpet Sonora or English Horn.

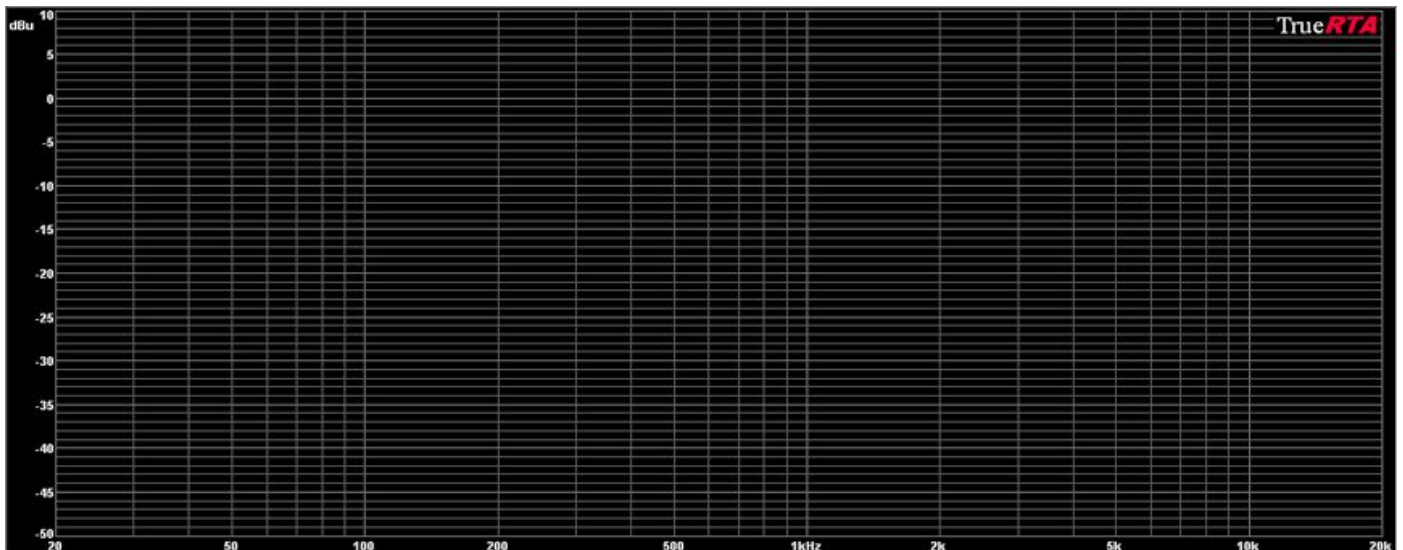

A pair of Ambience 6™ in combination with Dopple Bass™ or Traverse™ subwoofers also creates an effective two channel speaker system with sub-bass for a compact and very affective virtual pipe organ set up. Many combinations are possible to address to expand the various routing possibilities with virtual pipe organs.

The quality construction and components used to create Ambience™ assures years of continuous, trouble-free use and enjoyment, long after the price has been forgotten.

Ambience 6™

Architectural Design and Engineering Specifications:

Exterior Finish:	Piano Black, Cherry or Maple Veneer with Black Grill
Dimensions:	14.0H/8.5W/12.5D (w/o grill)
Net Weight:	16 Lbs.
Loudspeakers:	6 inch High-Compliance Woofer
High frequency:	1.125 Inch Ribbon Transducer
Frequency Dividing:	Passive 2-way, 2 nd Order Butterworth at 4.5 KHz
High Level Control:	N/A
Connectors:	5-way Binding Posts with 10 gauge wire capacity
Frequency Range:	60Hz – 40,000Hz
Sensitivity:	93db (1 Watt/1 Meter)
Power Handling:	100 Watts RMS/200 Watts Program
Nominal Impedance:	8 Ohms

Ambience 6: 1/3 Octave Frequency Response Graph (Pending)
